MOMMY MAKEOVER
LUCIE CAPEK, MD | LATHAM, NY

Watching my beautiful patient embrace her transformation after her Mommy Makeover has been such a gratifying experience💖
This procedure, which included an abdominoplasty (#tummytuck), liposuction, and a breast lift with implant replacement, was all about bringing her back to a place where she feels strong, beautiful, and the best version of herself.

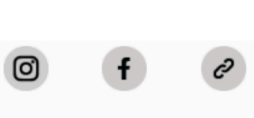

Every step of this journey has been about supporting her, inside and out, and seeing her glowing with confidence 🌸

In a field where men have historically held the spotlight, I'm here to change the narrative. As a female plastic surgeon, my motto "A Surgeon's Hands, A Woman's Touch" is a reminder that surgery is not just about technical skill, but also about empathy, understanding, and a deep respect for the emotional journey of each patient

I'm proud to blend precision with compassion, offering you the care and attention you deserve. It's time for more women to lead in this space and show the world that beauty is not just skin deep—it's about confidence and empowerment.
